DEVELOPING TOMORROW'S LEADERS

Although we all know that training can have many benefits, sometimes it can be hard to prove those benefits and attach a monetary value to training. Some topics, like sales training or time management, might have direct, tangible benefits. Other topics, like communication or leadership, might have benefits that you can't put a monetary value on.

From our Measuring Results from Training eCourse, you will learn about the different ways to evaluate training progress, and how to use those results to demonstrate the outcomes that training brings. Once the training has been evaluated the next step is to modify and updated the curriculum to create content that is better suited for the participants.

eCOURSE INCLUDES

- 4 Weeks Online Access.
- Measuring Results from Training Book per phase.
- Measuring Results from Training Templates and Exercises.
- Quick Reference Sheet.
- Online Exam.
- International Certification.
